

## PPAA rules Mbeya City Council lacked fairness in tender prequalification

By Joseph Muhozi, Dodoma

**THE Public Procurement Appeals Authority (PPAA) has ruled that prequalification conducted by Mbeya City Council regarding its tender for supplying medical products was so tarnished by a lack of fairness and irregularities that it should be done afresh, TPJ can report.**

This came to light at the conclusion of proceedings in the appeal, which was lodged by Maranatha Pharmacy Ltd, and decided upon in Dodoma on 12 August, 2022 under the Acting Chairman, Adv. Rosan S. Mbwambo.

According to a copy of the proceedings, Maranatha Pharmacy Ltd, was an aggrieved applicant in the prequalification, who was challenging the procuring entity's decision to prequalify six suppliers, while excluding him from tendering for supply of products including medicine and medical supplies, orthopedics and medical equipment for public health facilities in Mbeya Region, on account of attaching irrelevant documents.

The proceedings also show that the appellant, having received the entity's decision, applied for administrative review to the respondent, who went on to dismiss it, prompting the appeal which alleged that the respondent's conduct was against the procurement law for basing the decision on a single criterion instead of the pre-set minimum pass mark stated in the tender document.

In addition, the appellant

claimed that while he had provided proof of motor vehicles as per the requirements of the pre-qualification document, and certificates issued by Tanzania Medicine and Medical Devices Authority, as per the relevant law, the entity could only verify the information submitted by applicants at the post-qualification stage – not before, and that therefore it was unfair to cite failure of submitting vehicle registration card, as the verification of vehicle ownership ought to have awaited post-qualification.

He further argued that the submission of certificate issued by TMDA as a proof that his vehicle had been registered and authorized to perform the function of supplying medical products, was relevant and “even more relevant to pre-qualification than a mere registration card issued by Tanzania Revenue Authority.”

Responding, the entity said that the appellant was disqualified for failure to comply with requirements in the pre-qualification document, which required them to submit copies of motor vehicles registration cards, or copy of contracts for hired vehicles and that the copies of vehicle registration cards were to show capability to transport medical supplies.

Furthermore, the entity sub-

PPAA Acting Executive Secretary, Ms. Florida Mapunda

mitted that it conducted the evaluation through Tanzania National e-Procurement Systems (TANePS) based on the pre-qualification document and went on to concede that while indeed an applicant was supposed to score not less than 75%, this figure was not adhered to “as the system assessed score out of 100%” and that “it contained scores which could not be changed during evaluation”.

However, according to the proceedings, PPAA found that there was neither a detail on how the score of 75% was accorded to applicants, nor details on how the 75% would have been arrived at during the evaluation process.

Furthermore, the Appeals Authority found the evaluation report to be controversial as it showed applicants who scored 23.20% and 23.15% were marked passed, while the appellant, who scored 23.20% and others, who

scored 23.18% and 23.15% were marked failed.

The Appeals Authority also noted that the entity set a threshold for each criterion, which implied that the applicant could be disqualified for failure to meet a single criterion, regardless of the total scores.

In addition, PPAA found that while the entity had disqualified the appellant on account of failure to submit copy of a motor vehicle reg-

istration card and or copies of contract for hired vehicles, it failed to do so for another applicant in a similar breach, raising an issue of unfairness in the exercise, which prompted it to emphasize that “an entity shall, in execution of their duties, undertake to achieve the highest standard of equity, taking into account equality of opportunities to all tenderers, fairness of treatment to all parties and need to obtain the value for money in terms of price, quality and delivery having regards to

prescribed specifications and criteria.”

The Appeals Authority concluded that not only was the appellant disqualified contrary to the law but even the shortlisted ones were not pre-qualified as per the criteria set in the pre-qualification document and the law. It went on to decide that the pre-qualification was marred with irregularities, and ordered the entity to start the tender afresh in compliance with the law.
