

Burundi delegation on visit to learn about Tanzania's public procurement system

By Joseph Muhozi, Dodoma

A delegation from the Burundi Public Procurement Regulatory Authority (ARMP) is visiting Tanzania to learn about the government's efforts towards improving efficiency of the public procurement system, TPJ can report.

Speaking to the press after receiving the delegation in Dodoma today, the Chief Executive Officer of the Public

Procurement Regulatory Authority Tanzania (PPRA), Mr. Eliakim Maswi, said the visit is part of the knowledge exchange endeavours among members of the East African Community.

He said one of the aspects which the Burundian delegation was keen to learn about is the national e-procurement system of Tanzania (NeST), which Tanzania designed and built from scratch in order to enable public procurement processes bring about value

for money through enhanced transparency, accountability, and fair competition.

“We collaborate in many areas and we learn from each other about the steps we take to improve the management of public procurement, and this is among the resolutions on East African Public Procurement Forum,” said Mr. Maswi.

“Last December, when a delegation from the International Fund for

Agricultural Development (IFAD), which oversees major agricultural projects in Tanzania, Burundi and other countries, paid us a visit and got a chance to learn firsthand about the applicability and benefits of NeST, they decided to collaborate with us to ensure its success and utilization," he added.

Moreover, Mr. Maswi highlighted the role of the country's efficient public procurement regime in the successful implementation of major projects, including the construction of the University of Dodoma (UDOM) and the Mtumba Government City, also known as Magufuli City.

According to him, the Burundi delegation have also been briefed about the benefits and improvements brought about by the new public procurement law, which was signed by President Samia Suluhu Hassan, last year and which is timely, considering that East African Community member

countries are in the process of agreeing on a unified public procurement law.

On his part, the Director General of ARMP-Burundi, Mr. Nduwimana Cloude, expressed their admiration for Tanzania's initiative in building NeST using local experts, saying that they have come to learn the processes involved so that they can benchmark it.

He also mentioned their amazement at how the government had successfully undertaken significant projects such as the Mtumba Government City and UDOM, and expressed their interest in understanding how it achieved these successes.

"We have drawn much benefit from this visit... and we are very happy because, while it is our first time in Dodoma, we have already witnessed the excellent work done by the government and the people," said Mr. Nduwimana.

According to PPRA's schedule, the Burundi delegation has headed to Iringa to visit the NeST development experts' camp.

Uandaaji wa mahitaji ya ununuzi

Mahitaji ya ununuzi katika bajeti ya taasisi

Rasilimali kama watu, fedha, vitendea kazi, majengo ya ofisi na muda, ni rasilimali muhimu katika kusaidia utekelezaji wa majukumu ya taasisi, kama ambavyo yameainishwa kwenye miongozo iliyounda taasisi na kulingana na mipango kazi yake.

Kimsingi si rahisi kwa kila taasisi kuweza kujizalishia rasilimali zote inazohitaji katika kutekeleza majukumu yake, hivyo rasilimali nyingi hununuliwa kutoka nje ya taasisi kusaidia uendeshaji wake.

Kutoka katika maono na malengo hutengenezwa mipango mikakati ambayo huanisha shughuli zinazofanywa na taasisi ili kufikia ndoto na malengo yake. Kisha taasisi hutengeneza mipango ya kifedha inayobainisha makisio ya makusanyo na matumizi ya fedha katika shughuli zake; sehemu ya matumizi ya fedha hubainisha makadirio ya fedha zitakazotumika katika kugharamia fedha za matumizi ya kawaida, mishahara na shughuli za maendeleo.

Ukiondoa fedha za mishahara, asilimia 70 ya matumizi ya kawaida na karibu ya asilimia 100 ya matumizi ya maendeleo hutumika katika ununuzi.

Kwa mfano huo tunaona kuwa ili kutekeleza shughuli moja

ya taasisi kuna uwezekano wa kuwa na mahitaji ya ununuzi zaidi ya moja, yaliyogawanyika katika kategoria zaidi ya moja za ununuzi.

Kategoria za ununuzi Zifuatazo ni maana ya kategoria za ununuzi kama ambavyo zimeelezwa katika sheria ya ununuzi wa umma: - Bidhaa maana yake ni malighafi, vifaa na vitu vingine vya aina mbalimbali vinavyoshikika, vikiwa katika hali ya kimiminika, ugumu au gesi, umeme, mali isiyoshikika na miliki bunifu, pamoja na huduma zinazohusiana na usambazaji wa bidhaa hizo, ili mradi thamani ya huduma hizo haizidi thamani ya bidhaa yenyewe;

Huduma za ushauri wa kitaalamu maanayakenishughulizenye asili ya kitaalamu na kiushauri ambazo hazitoi matokeo yanayoonekana yanayoweza kupimika na hujumuisha usanifu, usimamizi, mafunzo, ushauri, ukaguzi au utengenezaji wa mifumo na huduma zinazofanana na hizo; Huduma za ushauri zisizo za kitaalamu maana yake ni ununuzi wowote mbali na ununuzi wa bidhaa, kazi za ujenzi na huduma za kitaalam;

Kazi za ujenzi maana yake ni- (a) kazi zote za ujenzi zinazohusiana na kujenga, kujenga upya, kubomoa, kukarabati au kuboresha jengo, barabara au kiwanja cha ndege; (b) kazi nyingine zozote za ujenzi kama vile uandaaji wa eneo la kazi, uchimbaji, usimikaji, ujenzi, usimikaji mitambo au vifaa, upambaji na shughuli za ukamilishaji wa ujenzi; na (c) huduma iliyotolewa kwa zabuni na kuingiwa mkataba kwa kuzingatia misingi ya utendaji wa matokeo

yanayopimika kwa kuonekana kama vile uchimbaji, uchoraji ramani, upigaji wa picha za satelaiti au uchunguzi wa miamba:

Isipokuwa, mikataba inayojumuisha utoaji wa kazi za ujenzi na huduma itachukuliwa kama ni mikataba ya kazi za ujenzi ikiwa jumla ya thamani ya kazi za ujenzi ni kubwa kuliko thamani ya huduma zitakazotolewa kwenye mkataba; Wakati wa kuandaa mahitaji ya ununuzi ni muhimu kuweka kila hitaji la ununuzi katika kategoria sahihi ya ununuzi kwa kuzingatia maana zilizotolewa hapo juu. Pale ambapo hitaji moja la ununuzi linajumuisha kategoria zaidi ya moja ya ununuzi kwa mfano hitaji la kusambaza bidhaa na kuzisimika, angalia gharama kubwa ya ununuzi ipo katika kusambaza bidhaa au kuzisimika, iwapo ipo katika kusambaza bidhaa basi hitaji hilo ni la bidhaa, lakini iwapo gharama kubwa zipo katika kusimika bidhaa basi hitaji hilo ni la kazi za ujenzi.

Mbali na kuangalia gharama kubwa zipo wapi, ni muhimu kufahamu wazabuni wanaoweza kufanya kazi husika wamesajiliwa kama wasambaza bidhaa, watoa huduma au watekelezaji wa kazi za ujenzi. Ufahamu huo utasaidia kuliweka hitaji katika kategoria sahihi ya ununuzi inayoendana na wazabuni walengwa.

Ushirikishwaji wa idara zote katika kuanda bajeti Zoezi la maandalizi ya bajeti ya taasisi linapaswa kuwa shirikishi kwa kuhusisha wawakilishi wa kila idara na vitengo ikiwemo kitengo cha ununuzi. Mwakilishi wa kitengo cha ununuzi atahusika katika kuandaa bajeti za shughuli za idara yake lakini pia anapaswa kuhakikisha bidhaa, huduma na kazi za ujenzi zinazopaswa kununuliwa ili kuwezesha shughuli za kila

Mambo ya Kuzingatia katika...

Inatoka Ukurasa 3

idara zimejumuishwa kwenye bajeti ya taasisi kwa usahihi kwa kuzingatia idara, shughuli na kategoria sahihi za ununuzi.

Kumekuwa na changamoto kubwa ya kukosewa kwa kategoria za ununuzi kwa mahitaji yaliyojumuishwa kwenye bajeti, unakuta hitaji la bidhaa kama chakula, software au mafuta ya diseli limewekwa katika kategoria ya huduma ya ushauri usioelekezi; hitaji la huduma za ukumbi au utunzaji wa bustani limewekwa kama huduma za ushauri elekezi.

Aidha kuna changamoto nyingine ya kujumuisha gharama za kulipia ankara za umeme, maji na posho za kujikimu za watumishi wa ndani kama sehemu ya mahitaji ya ununuzi. Kwa kawaida gharama za kulipia ankara za huduma za maji na umeme siyo sehemu ya mahitaji ya ununuzi badala yake ni sehemu ya bili zinazolipwa kwa taratibu zilizowekwa na taasisi zinazotoa huduma husika.

Gharama za kuvuta umeme na maji kwenye jengo la ofisi zinaweza kujumuisha kwenye mahitaji ya ununuzi iwapo shughuli hiyo ya kuvuta umeme itafanywa na mkandarasi badala ya taasisi ya serikali inayotoa huduma husika.

Ukusanyaji wa mahitaji ya ununuzi kutoka idara tumizi Mahitaji ya ununuzi kutoka idara tumizi yanaweza kuingizwa katika mfumo wa NeST kwa kutumia njia mbili; njia ya kwanza ni kwa HPMU kuvuta mahitaji husika kutoka katika mifumo ya kibajeti inayotumiwa na taasisi husika na iliyounganishwa na NeST; na njia ya pili ni kwa Mkuu au Afisa wa Idara

Tumizi kupandisha mahitaji hayo kwa kutumia kiolezo (template) maalum kinachopatikana katika mfumo wa NeST. Njia ya kwanza ya kuvuta mahitaji ya ununuzi kutoka katika mifumo ya kibajeti, haijatumikiwa sana na taasisi ununuzi kwa

sababu ya mapungufu yaliyobainika katika bajeti zilizopo. Inawezekana jambo hili limesababishwa na ushirikishaji hafifu wa idara zote ikiwemo PMU katika zoezi la maandalizi ya bajeti.

Mfumo wa NeST umeongeza thamani ya zoezi la maandalizi ya bajeti kwa kutoa fursa ya bajeti inayoandaliwa kutumika katika mchakato wa ununuzi, hivyo ni muhimu sana bajeti za Mwaka wa fedha 2024/2025 zikaandaliwa vizuri ili zitumike kuandalia mipango ya ununuzi katika NeST. Mahitaji ya ununuzi yanayovutwa kutoka katika mifumo ya kibajeti, huonyesha taarifa zifuatazo: jina na msimbo wa idara, maelezo na msimbo wa shughuli ya idara, maelezo na msimbo wa GFS, kategoria ya zabuni, kipimo (Unit of Measure), idadi ya mahitaji kwa kipimo kilichochaguliwa, makadirio ya gharama kwa hitaji moja, frequency, jumla ya gharama na kipindi hitaji litatakiwa kupatikana.

Njia ya pili ya kupandisha mahitaji kwa kutumia kiolezo maalumu ndiyo njia iliyotumika zaidi katika mwaka wa fedha 2023/2024. Taarifa zinazokusanywa katika kiolezo hicho ni kama zinazokusanywa katika mifumo ya kibajeti isipokuwa katika kiolezo hicho kuna taarifa moja imeongezeka ya kueleza ni kitu gani hasa kinatakiwa kununuliwa.

Maelezo hayo yanapaswa kuwa ni maelezo ya ujumla yatakayomsaidia PMU kufahamu hitaji la idara tumizi ambalo si rahisi sana kulifahamu kwa kuangalia tu maelezo ya shughuli ya idara na msimbo wa GFS uliotumika. Kabla ya kujaza mahitaji kwenye kiolezo maalumu, ni muhimu PMU wakawapitisha idara tumizi katika orodha ya GFS codes zinazofaa kutumiwa katika mahitaji ya ununuzi.

Orodha hiyo inapatikana

Inaendelea Ukurasa 4

MAKALA

Mambo ya Kuzingatia katika utekelezaji...**Inatoka Ukurasa 4**

katika sehemu ya mipangilio (settings) iliyondani ya moduli ya APP Management. GFS codes hizo zipo za bidhaa, huduma za ushauri elekezi, huduma zisizo za ushauri elekezi na za kazi za ujenzi. Baadhi ya GFS codes hasa za bidhaa na huduma zisizo za ushauri elekezi zimefanana majina lakini zinatumiya namba tofauti, kwa mfano kuna GFS codes nyingi za spareparts na motor vehicles, lakini baadhi ni za bidhaa na zingine ni za huduma. Hivyo, idara tumizi asaidiwe kuchagua GFS code sahihi inayoendana na kategoria ya hitaji lake la ununuzi.

Aidha ni muhimu kuzingatia kuwa kila GFS code iliyomo kwenye mfumo wa NeST imeunganishwa na bidhaa, huduma au kazi za ujenzi zinazopaswa kununuliwa kwa mujibu wa UNSPSC codes. Hivyo ni muhimu pia PMU akawasaidia

idara tumizi kuchagua GFS codes zinazoendana na mahitaji ya idara tumizi kwa mujibu wa UNSPSC codes.

Ni muhimu kufanya uchaguzi sahihi wa kipimo (UoM) cha kutumika kwa kila hitaji, kwa kawaida kipimo kinapaswa kuwa namna ya malipo yatakavyofanyika, kwa mfano unaponunua bidhaa kwa kawaida bidhaa hulipwa kwa kuhesabu idadi ya bidhaa au vifungashio vyake hivyo vipimo kama Each, Pc vinafaa kwa bidhaa; kwa huduma za ushauri elekezi, usafi na ulinzi malipo hufanyika kwa mwezi hivyo ni vizuri zaidi kutumia idadi ya miezi badala ya idadi ya watu wanaohitajika. Kwa kazi za ujenzi malipo hufanyika kwa kupima kazi nzima iliyofanyika hivyo mara nyingi kipimo kinachotumika ni lumpsum au contract. Kuhusu matumizi ya frequency, ni kweli lengo lake ni kuonyesha

ununuzi utafanyika mara ngapi kwa mwaka, lakini kumbuka jumla ya gharama za ununuzi kwa hitaji moja ni matokeo ya kuzidisha idadi, gharama kwa bidhaa moja na frequency.

Hivyo kama matokeo ya kuzidisha idadi ya bidhaa na makadirio ya gharama kwabidhaamojayanafikiabajetiiliyotengwa kwa hitaji basi kwenye frequency weka moja mara zote. Mfano bajeti ya hitaji ni TZS 10000, na idadi ya bidhaa ni 5, na makadirio ya gharama kwa bidhaa moja ni TZS 2000, basi frequency itakuwa moja hata kama vitu hivyo vitanunuliwa mara tano. Ukitaka kuweka frequency ya tano kwenye hesabu, basi itabidi idadi ya bidhaa iwe 5, gharama kwa moja 400 na frequency tano ili jumla iwe TZS 10000.

Mfumo hauruhusu hitaji lenye msimbo mmoja wa idara, msimbo mmoja wa shughuli na msimbo mmoja wa GFS kujirudia katika mistari (rows) kadhaa ya kiolezo maalumu.

Itaendele Toleo lijalo
